

ATTENTION! INCOMING GRADE 12 STUDENTS

In light of the evolving public health situation, Expert Guides will conduct an alternative mode of teaching and learning for the College Entrance Exam Review. We have prepared online review sessions where the students can interact with the instructors. With this approach, we guarantee that the students will receive the same extent of instruction they would get in the traditional classroom teaching. This alternative mode was developed to provide the necessary review and preparation of our students while securing their safety.
